THE LIBRARY OF CONGRESS
WASHINGTON : 1957

# INTRODUCTORY NOTE

The MONTHLY LIST OF RUSSIAN ACCESSIONS is a record of the publications in the Russian language issued in and outside the Soviet Union that are currently received by the Library of Congress and a group of cooperating libraries. Whenever possible, publications printed in other languages spoken in the Soviet Union are also included. However, publications in the languages of the U. S. S. R. issued in countries of Eastern Europe are not included, since they are covered by the *East European Accessions List.*

The MONTHLY LIST consists of three parts. Part A lists monographic literature, but no accessions published earlier than 1945 are included. To facilitate the use of this LIST by readers who are not thoroughly familiar with the Russian language, the title in the original language in Part A is preceded by its English translation in brackets.

Part B lists Russian periodicals with their tables of contents translated into English. However, accessions printed earlier than 1947 are not included.

Part C is a subject guide to both the monographs and periodical articles listed in Parts A and B. Monographs are listed under the appropriate subject headings first, followed by the periodical articles. For the convenience of readers desiring to examine only monographs or periodical articles, the monographs are printed in slightly heavier type than the periodical articles. The titles of monographs are given both in the original language and in English translation, whereas titles of periodical articles are given in English translation only. In citing periodical articles the following abbreviations are used for the months of the year:

| | | | | | |
|---|---|---|---|---|---|
| Ja | January | My | May | S | September |
| F | February | Je | June | O | October |
| Mr | March | Jl | July | N | November |
| Ap | April | Ag | August | D | December |

Sample title: Electric action of the brain in glaucoma. L.S.Levina, G.M.Neishtadt. Vest.oft. 30 no.5: 8-12 S-O '51.

Explanation: An article with title given above in English translation, written by L. S. Levina and G. M. Neishtadt, will be found in the September-October 1951 issue of *Vestnik oftalmologii*, vol. 30, no. 5, pages 8-12.

A list of periodicals included in the current issue, with abbreviations used, is given at the beginning of Part C in each issue of the LIST. The number and letter in parentheses following each periodical title indicate the class and subclass in which it is to be found in Part B. Cumulative lists of periodicals included in the current volume appear in numbers 6 and 12 of that volume. These lists are arranged by subject; the symbols of American libraries other than the Library of Congress, known to have current files of such periodicals, follow each title.

Except in Part C, the material is divided into 17 subject classes and is arranged alphabetically within each class. In addition, for the convenience of the reader, the serials listed in Part B are divided within each subject class into several subclasses. All entries are transliterated according to the usual Library of Congress system except that ligatures are omitted. Unless otherwise indicated, all listed items are represented in the collections of the Library of Congress. Symbols * representing other libraries indicate when items are available in those libraries. Curves ( ) around a symbol indicate that at the time of receipt the material was available in another library but not in the Library of Congress.

A cumulative author, subject, and periodical location inc
MONTHLY LIST is available as a separate publication. I

Table of contents translated:
Vovchenko, N.L. - Tasks of pipeline installers in the sixth five-year plan. p. 1.
Zhdanovich, G.V. - New machines used in construction of petroleum enterprises. p. 3.
Voskanian, T.A. - Demonstration construction of apartment houses using coarse porous concrete building blocks. p. 7.
Tikhanovskii, S. V. - Utilizing new methods in plans of the State Institute for Planning Specialized Petroleum Construction. p. 11.
Taran, V.D., Berezin, V.L. - Study of characteristics of electric butt welds. p. 13.
Chulkin, K.P. - Reinforced concrete tanks from coarse porous concrete for gasoline storage. p. 18.
Kamershtein, A.G. - Extensive use of sharply bent elbows prepared in the shop. p. 20.
Meeting of innovators-equipment operators. p. 23.
Kshondzer, G.L. - Notes from the leading section of the Stavropol'-Moscow gas pipeline. p. 24.
Shaposhnikov, D.A. - Production of clayey lightweight crushed stone. p. 27.
Mironov, S.A. - International congress on winter concrete construction. p. 30.
Hydraulic self-propelled crane. p. 31.
New purpose of pipelines. p. 32.

Vol. 1, no. 3, May 1956.
Table of contents translated:
The most important tasks of industrial construction. p. 1.
Svatikov, M.S. - Efficient method of testing main pipelines. p. 3.
Doroshenko, P.G. - Apparatuses for protecting pipelines against corrosion caused by stray currents. p. 8.
Bunchuk, V.A. - Deep-seated precast factory-made reinforced concrete tanks for petroleum products. p. 10.
Barit, S.IU. - Science in cooperation with industry. p. 12.
Bagirov, V.S. - Unified regional unit rates. p. 15.
Sitov, V.I. - Installation of crossings in the Moscow Basin section of the Stavropol-Moscow gas pipeline. p. 17.
Volkov, A.A. - Precast reinforced concrete used in construction in the Tuymazy oil fields. p. 19.
Group conference of oil-field construction workers. p. 22.
Shaposhnikov, D.A. - Kilning brick clay having increased moisture. p. 23.
Alekseev, L.I. - Using precast foundations and wells. p. 25.
Denisov, N.A. - Piecework payment system for construction workmen. p. 26.
Smirnov, V.P. - Tasks of efficiency promoters and inventors. p. 28.
IAnkelev, L.F. - New high heat-resistant concrete. p. 30.

Vol. 1, no. 4, June 1956.
Table of contents translated:
Tasks of petroleum refinery builders in the sixth five-year plan. p. 1.
Ovruchskii, G.L. - Methods for reducing costs and time of construction of industrial bases for petroleum refineries. p. 3.
Rapoport, IA.A. - Assembling spheroidal storage tanks from preshaped metal rolls. p. 7.
Vinokurov, N.A. - Pay more attention to the industrialization of sanitary-technological work. p. 10.
Lampeko, S.N., Avramets, V.V. - Calculating foundations. p. 12.
Frolov, V.N. - Manufacturing seamless ice pipes. p. 15.
In the State Mining Engineering Inspection Administration. p. 17.
Khomskii, P.D. - Shop for manufacturing brick blocks. p. 18.
Fel'dshtein, L.M. - Unit assembly of the metal elements of refinery installations. p. 21.
Lukovatyi, A.P. - Assembling DKV boilers using large blocks. p. 24.
Plan of a building-assembly trust. p. 25.
Melikhova, E.T. - Efficiency promotion work in the Bashkiria Petroleum Refinery Building Trust. p. 26.
Drill unit for rocky terrain. p. 27.
New petroleum refinery in Durban. p. 28.
Melting insert technique for pipe welding. p. 28.
Forced pipeline laying through swamps. p. 29.
Aerial pipeline crossing. p. 30.
Truck-mounted hydraulic crane. p. 30.
New books. p. 31.
Instructions and standards. p. 32.

Vol. 1, no. 5, July 1956.
Table of contents translated:
For greater development of labor productivity. p. 1.
Livshits, L.S. - Welding alloy steel refinery pipelines. p. 3.
Glazkov, V.I., Kotik, V.G. - Cathodic protection station with a semiconducting thermoelectric generator. p. 7.
Kontorovich, S.O. - Mobile apparatus for manufacturing porous clay filler and wall slabs. p. 10.
Kamershtein, A.G. - Technical instructions for determining the depth of laying main pipelines. p. 12.
IAnkelev, L.F. - Method of rapid determination of heat and temperature conductivity coefficients without taking samples. p. 14.
Selivanov, P.A. - Organization of communications on the Stavropol-Moscow gas pipeline. p. 17.
Planning overhead costs according to construction organization. p. 21.
